

Figure 1. The effect of the concentration of the *Agaricus bisporus* spores on the growth of *Agaricus bisporus* on the substrate.

1. Introduction
 The purpose of this study is to investigate the effects of the proposed system on the performance of the system. The study is divided into two main parts: a theoretical analysis and an experimental analysis. The theoretical analysis is based on the principles of the system and the experimental analysis is based on the results of the experiments.
